

SEMI-PERMANENT TENTS

INSIGNIA™ TENSION TENTS

User friendly and attractive, our Insignia tension tents are a favorite for special events, fairs, trade shows and food service use, with their ease of setup and lightweight aluminum frame. Their unique design utilizes the high tensile strength of the fabric to serve as both shelter and support, eliminating heavy frame sections, while the tool-free assembly makes set-up and take-down stress free. The striking tent canopy, with its dramatic peak and distinctive valance shape, is available in a variety of colors and is constructed of 13-18 oz. vinyl polyester, meeting NFPA701 large scale fire code. Insignia tents may also be customized with various walls to complete the desired facade.

10 X 10
