

# EVENT STRUCTURES

---

From the starting house to the finish line, the awards ceremony to the after party, EPS-Doublet has the in-house capabilities to construct and decorate the event structures necessary to facilitate a first class competition. We also offer a line of customizable inflatables if you prefer non-rigid structures for marking start and finish lines.

---

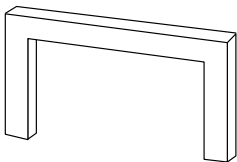

## STARTING GATES

Aluminum extrusion or truss based systems custom built to suit your event and application. Available with or without graphic skins. Timing components not included.

---

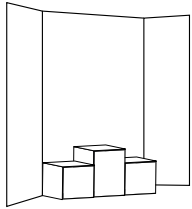

## FINISH LINES

Aluminum extrusion or truss-based structures available with a variety of graphic wrap substrates, including mesh and vinyl. Custom built to suit roadway or course specifications.

---

## AWARD PODIUMS

Custom designed podiums and awards backdrops, from complex structures to simple printed rigid substrates. Available in a variety of materials and configurations.

---

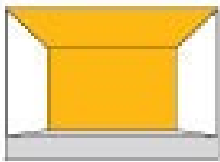

## STAGE SCRIM

When you need a more superior presence, this vinyl coated mesh holds up over prolonged use. Allows for wind and sound to pass through, making it an excellent cover for stage speakers and scaffolding. Sold by the roll or as cut yardage.

---

## STAGE BACKDROPS & CEILINGS

Custom sized to suit with standard vinyl, polyethylene, mesh or nylon materials available. Available with digital, dye-sublimation or traditional screen printing.
