

# INFLATABLES

Custom inflatable displays add immediate visual impact to any event, and can be useful both in entry and exit or wayfinding, or simply as a creative medium for staging a promotion.

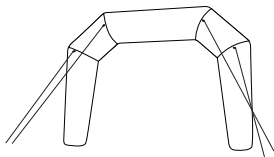

## COLUMN

Inflatable towers are available in 3' or 5' diameters, with custom heights to your exact specifications. Columns may include a printed sock, or may have imagery printed directly on the inflatable itself. Blower is included.

3' Diameter  
5' Diameter

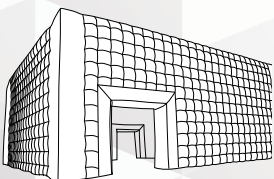

## ARCH

Inflatable archways are sized to suit your application (minimum height requirement for arches going over roadways is 13' 6"). Imagery may be printed directly on the inflatable itself, or added via velcro attached printed banners. Blower is included.

Sized to suit

## CUSTOM

Custom shaped inflatables are a simple way to add visual impact to any event, and can provide both sponsor highlighting as well as clearly defined entrances or finish lines. Inflatables are made to order and custom built to suit the needs of your event. Printing may be done directly on the inflatable, or on a removable and exchangeable "sock" cover. Blower is included.
