

MESH FENCING

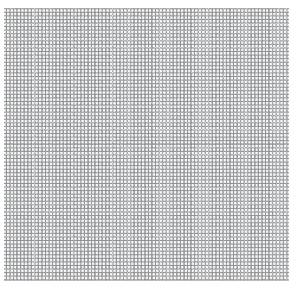

Whether you require an affordable single-day solution, or a reliable investment for long-term use, EPS-Doublet has a variety of barrier and crowd control options to suit every application and budget. We offer both rental and purchase options on barricades, and a wide range of color, printing and durability alternatives within our printed fencing line.

STANDARD MESH

When your sponsor or brand needs a more superior presence, this vinyl coated material fence holds up over prolonged use in myriad applications. Mesh fencing allows for wind and sound to pass through, making it an excellent cover for stage speakers and scaffolding. Sold by the roll or as cut yardage in white, red, blue, green, yellow or black. Custom colors available by special order. Excellent for both screen printing and full-color digital printing.

WEFT

Similar to mesh fence, weft fence provides a tighter weave allowing for 33% permeability for sound and wind. Sold by the roll or as cut yardage. Available up to 300' lengths.
