

# REAL ESTATE SIGNAGE

---

EPS-Doublet works with several large commercial land developers and real estate brokers, providing both post-style and exterior wall mounted property signage. We're proud to offer several of our most popular configurations in our standard product line. Various substrates are available to suit your application and budget. Fulfillment services are also available.

---

## SINGLE

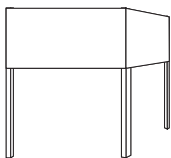

Two post single flat commercial display. Applied graphic sign is single or double-sided and may be mounted either directly to the front of the posts or as an insert in channels routed in posts. Available in alumalite or plywood.

Graphic – 96" x 48"  
Sign Height – 10' (8' above ground)

---

## DOUBLE

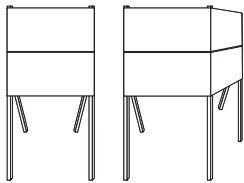

Three post double commercial display installs at 90 degree angle. Applied graphic signs are single-sided. Available in alumalite or plywood.

Graphic – 96" x 48" (x2)  
Sign Height – 10' (8' above ground)

---

## SINGLE & DOUBLE STACKED

Applied graphic signs are single-sided and stacked vertically one on top of the other. Available in almalite or plywood.

Single:  
Graphic – 96" x 48" (x2)  
Sign Height – 16' (12' above ground)

Double:  
Graphic – 96" x 48" (x2)  
Sign Height – 16' (12' above ground)
