

TRUSS TENTS

Truss Tents, an EPS-Doublet original, offering both the ultimate in strength and a unique aesthetic, are highly customizable to suit your application. With modular leg elements, Truss Tents may be built to your footprint and height specifications (not available in hex configurations). Truss Tents include our classic tension tent top, with a dramatic peak height and distinctive valance shape that may be further customized with a simple logo or full coverage digital graphics.

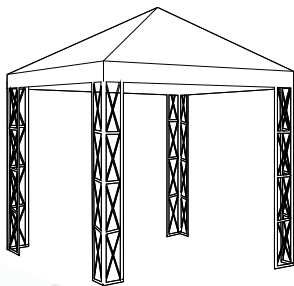

10 X 10
